

# Certified Scrum Product Owner Training Course

## Scrum Product Owner Certification:

The role of a Certified Scrum Product Owner is key to the success of any Scrum Team. The Product Owner is responsible for prioritising the work of the team in order to maximise return on investment and provides the vision and guidance to the team, bridging the potential gap with the customers and business.

This 2-day Scrum Product Owner training employs practical exercises, case studies and discussions to provide everything that a Product Owner needs to know to be able to drive a successful Scrum Project. Participants who complete the Scrum Product Owner Certification successfully will be designated Certified Scrum Product Owner (CSPO). This Certification includes two years' membership of the ScrumAlliance, where additional materials and information is available to CSPO's.
